Abstract

In this day and age, anyone can easily broadcast themselves to the entire world. The problem is, live streaming services and social media sites are becoming more censored and strict by the day. They limit your freedom of speech and action, and fall prey to information leaks and privacy violations. Government entities subpoena email providers, social media accounts, and streaming services to obtain your personal data. In addition, your data stored on these sites are also susceptible to hackers and data extraction.

In contrast, Freedom Streaming offers a full live streaming platform that allows you to stream from anywhere in the world, uncensored, safe, and anonymous. We take your privacy seriously. Unlike other sites, we do not ask for, store, distribute, or sell any of your personal information. No advertisements or trackers will ever be allowed on our platform. IP address logs are wiped every 24 hours. Donations between users can be done through Freedom (FDM) Tokens without revealing your personal information. This allows users to use our platform, interact with one another, and donate to one another anonymously. Your information cannot be hacked or subpoenaed. We simply don't have it.

Internet censorship is spreading throughout the free world at an alarming rate. Freedom Streaming has taken a stance to fight against all forms of internet censorship. We will provide a full featured live streaming platform that focuses entirely on the protection and privacy of users.

1. Introduction

Live streaming is a multi-billion dollar business and it shows no signs of stopping. All one needs is an internet connection and webcam to live stream. It is the equivalent to having one's own television show being broadcast through the internet, and can be done so at no cost. Previously, the majority of broadcasters were live streaming video gameplay. This was due to strict censorship and rules placed on streamers by major streaming platforms. However, the coverage of live streaming is spreading to cover a wider variety of content now including music, art, travel, cooking, shopping, business, politics, religion, personal life, etc. Live streaming offers everyone the opportunity to broadcast themselves live, reach an international audience, build a community, and promote themselves or their cause, all through the internet. Freedom Streaming will take live streaming even further in terms of coverage. We will give streamers the freedom to produce and broadcast the content that they want to, without censorship. If your content is legal, we will allow it.

2. Problems with Streaming Platforms

2.1 Censorship

The few available live streaming platforms practice policies of strict censorship. Their terms of service is full of a list of rules and regulations on what content is bannable. Most of these rules are not in respect to legal laws and are just their own policies of censorship. If you aren't broadcasting content that falls within a pre-approved category, you are likely to be shut down very quickly. In addition to that, all the current running live streaming platforms impose inflexible restrictions on what you can say and do, which is censorship without exception.

The most popular live streaming platform, Twitch.tv has enforced some of the most severe restrictions and censorship in media to date. They state that the company “reserves the right to suspend any account at any time for any conduct that we determine to be inappropriate or harmful. You are free to appeal your suspension, but we are not required to provide a reason for our decision.” Initially, Twitch.tv had banned any content that was not related solely to video

game gameplay. In recent years, several popular Twitch.tv streamers who have developed a massive community and following were permanently banned by Twitch.tv for little to no reason at all.

Certain countries, such as China disallow streaming altogether and have adopted a blanket ban policy.

2.2 Lack Of Privacy

All streaming and social media platforms are currently committing privacy violations of all sorts. They ask for and store your personally identifiable information which include your name, address, phone number, email address, IP address, location, and more. They include advertisements with trackers which snoop on your personal data, browsing habits, history, etc. Storing your personal data leaves it susceptible to database hacks and dumps, which happen even to the largest corporations with some of the best security experts on hand. These sites also sell your information to third-party data gathering services who in turn sell your information again. Privacy no longer exists on the internet of this day and age because financial incentives have replaced respect for privacy.

2.3 Collaboration with Law Enforcement

Streaming and social media platforms respond to government subpoenas by releasing all your personal information and activity on record which include your chat logs, photos, videos, GPS locations, and more. All social media and live streaming platforms have no choice but to comply with government requests for user data.

3. Freedom Streaming

We believe that live streaming will empower those who want to be heard. And we believe that communication should not be censored in any way, shape, or form. Unfortunately many people live in countries that continue to inhibit free speech, where addressing topics such as their nation's political, economic, or social problems can result in fines, jail time, or even death. In adhering to our belief that your speech should not be restricted, we have set out to develop Freedom Streaming, which will extend to its users the ability to communicate freely, no matter where you live, allowing you to stream anonymously in a manner that will fully protect your identity.

3.1 Platform Goals

Our goals and policies are outlined as follows:

- **No content category restrictions**
 - We do not have content category restrictions for streamers, you are free to create your own content ideas
 - You are free to create and broadcast any legal content that does not endanger yourself, others, or our platform
 - Mature content providers will be separated from general content providers
- **No censorship policy**
 - We will not ban you for expressing your thoughts and opinions
 - We do not shut down streams subjectively
 - We will allow much more freedom than any platform in existence
- **Full privacy and anonymity**

- We don't ask you for or store your personal information
- We allow and recommend disposable email addresses for signup
- IP address logs wiped every 24 hours
- **No data retention**
 - Streams occur at real-time only and are not stored anywhere
 - Activity and chat logs wiped when the stream ends
- **No Advertisements**
 - There are no advertisements, banners, commercials, or trackers
 - No interruptions to your live content
- **Freedom (FDM) Tokens**
 - Earn FDM Tokens through our reward system
 - Use FDM Tokens to donate to other users anonymously
 - Use FDM Tokens to access premium features on the platform
 - Withdraw FDM Tokens to any Ethereum wallet address

4. ICO Model

Freedom Streaming is a new live streaming platform that is being developed to give you all that we believe live streaming should be and more. Where other sites impose restrictions and rules on content, Freedom Streaming will be free from restrictions, allowing you produce the content you want and broadcast it to the world. In order to fully protect our users' privacy against privacy violations, hackers, and government entities, etc., Freedom Streaming will allow you to keep your anonymity, both as a streamer and as and viewer on our platform. We do not ask for any of your personally identifiable information. And donations will be done through Freedom (FDM) Tokens, which means you won't need to release any of your financial information either.

4.1 ICO Goals

The goal is to raise funds for platform development, legal fees, and marketing as well as for operational, administrative, and server/bandwidth costs. This will be achieved through our ICO (Initial Coin Offering), where we will allow the public a limited period of time to exchange Ethereum (ETH) for Freedom (FDM) Tokens prior to the official launch of the token reward system.

4.2 ICO Structure

Freedom Token	Freedom (FDM) Tokens are used within the Freedom Streaming platform for users to donate to other streamers/users and to access premium features on the platform. Freedom (FDM) Tokens are also rewarded through the Proof-of-Reward (PoR) system. Please see the Whitepaper for more details.
Symbol	FDM
Total Supply	1,000,000,000 Freedom (FDM) Tokens
ICO Tokens Available	650,000,000 Freedom (FDM) Tokens (Hard Cap)
Accepted Cryptocurrency	ETH (Ethereum)
Exchange Rate	<p>Pre-ICO</p> <ul style="list-style-type: none">• 1 ETH: 12,000 Freedom (FDM) Tokens <p>ICO</p> <ul style="list-style-type: none">• 1 ETH: 10,000 Freedom (FDM) Tokens
Minimum Contribution	0.01 ETH
Time	<p>Pre-ICO</p> <ul style="list-style-type: none">• 11/15/2017 (5:00 pm UTC) - 12/01/2017 (5:00 pm UTC) <p>ICO</p> <ul style="list-style-type: none">• 12/1/2017 (5:00 pm UTC) - 12/31/2017 (5:00 pm UTC)

4.3 ICO Distribution, Funding & Bounties

Distribution

Freedom (FDM) Tokens are an ERC-20 compliant Ethereum token. The tokens will be distributed according to the following allocations:

- 65% - Initial Coin Offering
- 30% - Freedom Token Rewards
- 5% - Bounties

A total of 650,000,000 Freedom (FDM) Tokens will be available for purchase during the Pre-ICO and ICO period.

Funding

Proceeds of our Freedom (FDM) Tokens will be allocated for site development (65%), legal fees (20%), and marketing (15%).

Bounties

Five percent of distributed Freedom (FDM) Tokens are reserved for bounties. Their categories are the following:

- 20% (10,000,000) - Translations
- 20% (10,000,000) - Youtube videos
- 20% (10,000,000) - Blog, Steemit, news articles
- 15% (7,500,000) - Twitter & Facebook posts
- 5% (2,500,000) - Bitcointalk signatures

Bounties

Note: Unsold Tokens and Unclaimed Bounties will be remain with Freedom Streaming.

4.4 ICO Participation

Since our ICO is programmed by smart contracts, Freedom Streaming only accepts ETH (Ethereum). ICO participants will receive their tokens immediately after they send ETH to the address provided on our site. This address will be shown during the Pre-ICO launch and NOT BEFORE. *Please do not send tokens to any other address at any given time.*

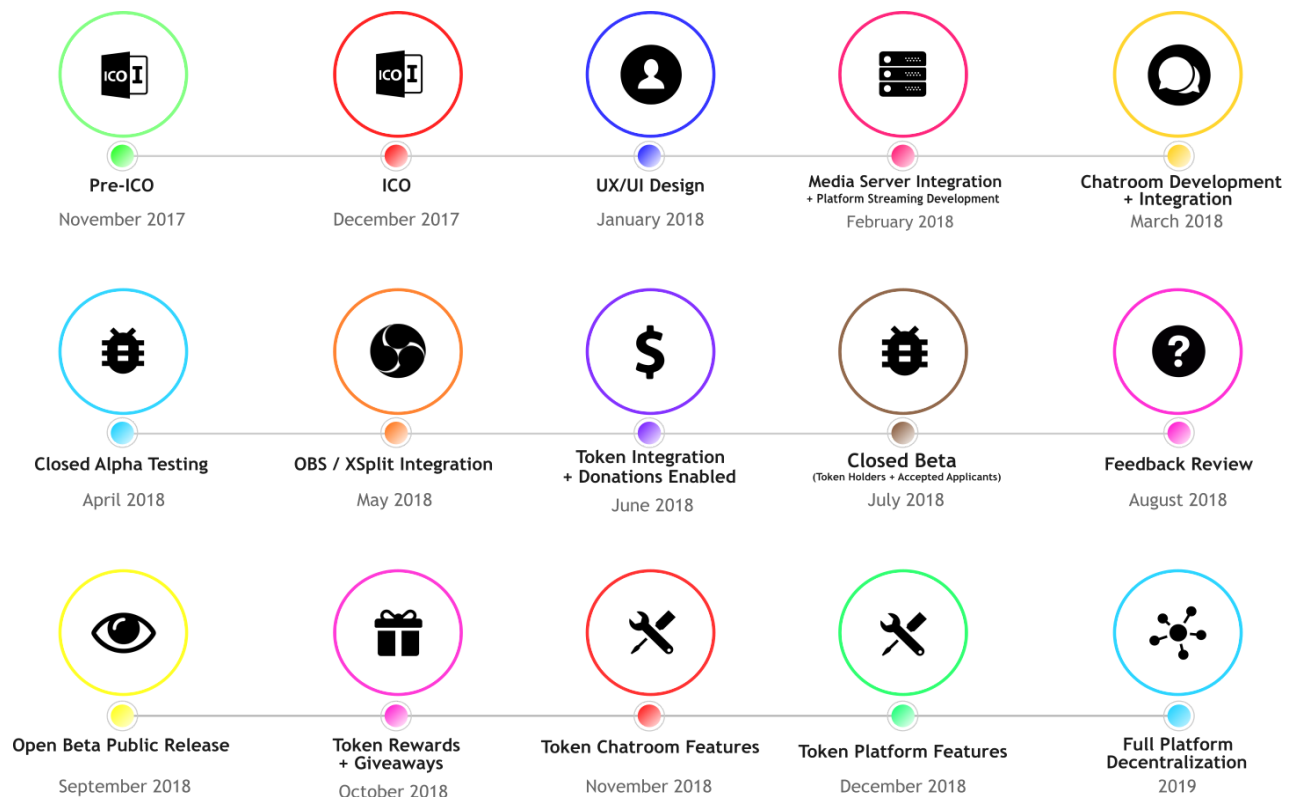

Note: All ETH should be sent from a privately owned wallet. Example include MyEtherWallet, Mist, or Parity. Exchange wallets are not set up to receive FDM Tokens during the ICO period. So if you donate from one, you WILL NOT receive your tokens.

5 Development

5.1 Development Plan

- *January 2018 - UX/UI Design:* During the design phase of our platform, we will create a simplistic, user friendly interface that will allow anyone of all ages to stream easily. We will also design the platform for a user experience that will both look and feel good.
- *February 2018 - Media Server Integration + Platform Streaming Development:* We currently plan to integrate the Wowza streaming engine, a premium media server that powers professional-grade streaming for any use case and any device. We will follow this up with testing in different streaming types to verify it works on all devices.
- *March 2018 - Chatroom Development + Integration:* We develop a custom chatroom for our platform. We will have a full featured channel functions that streamers are accustomed to and more.
- *April 2018 - Closed Alpha Testing:* Closed alpha testing will be done by our development and test team at this early stage.
- *May 2018 - OBS / XSplit Integration:* We will integrate Open Broadcaster Software and XSplit Broadcaster capability into the platform. This will allow professional streamers to broadcast multiple input devices simultaneously.
- *June 2018 - Token Integration + Donations Enabled:* Tokens will be transferrable between users as donations within the platform. Tokens can also be withdrawn to Ethereum wallet addresses, outside of the platform.
- *July 2018 - Closed Beta (Token Holders + Accepted Applicants):* FDM Token holders will be able to use the platform from here on out. If we require additional users for testing the platform, we will allow a certain number of users to apply.

- *August 2018 - Feedback Review:* We will use the feedback given during the closed beta period to improve the platform and fix any known issues.
- *September 2018 - Open Beta Public Release:* The site will go live and be accessible to the general public.
- *October 2018 - Token Rewards + Giveaways:* Users will begin to earn monthly FDM Token rewards as stated in Section 7.2 “Freedom Token Reward System”.
- *November 2018 - Token Platform Features:* Tokens can be used for additional platform features as stated in Section 7.1 “Token Usage”.
- *December 2018 - Token Chatroom Features:* Tokens can be used to customize chatroom features as stated in Section 7.1 “Token Usage”.
- *2019+ - Full Platform Decentralization:* Testing for full decentralization of the platform as stated in Section 5.3 “Decentralization”.

5.2 Integrations

Our platform intends to fully support both OBS and Xsplit software that allows professional streamers to create scenes and to use various capture devices. We have currently decided against running our platform on TOR. TOR is a great project, but it lacks the speed required for high-quality live streaming. We aim to operate completely legally on the clearnet.

5.3 Decentralization

We support decentralization completely. But with the current state of live streaming requirements, it is not possible to do so because of the need for a media server. Following the open beta release of the platform, we intend to test projects like IPFS, Sub Stratum, Decent, etc. to see if any such technologies can provide an adequate decentralized live streaming environment without hindering speed and performance.

6 Platform

6.1 Operation Policy

We intend to fully comply with all legal and regulatory laws, while protecting your privacy at all times. To that end, we do not ask for or store any personally identifiable information other than your provided email. Therefore, we highly recommend you use a disposable email address at sign-up. Your activity and chat logs are not recorded. Your streams are not recorded. IP address logs are wiped every 24 hours. No files are hosted on our servers. All content is provided by third party content providers real-time only.

We will always notify users of requests from law enforcement and government entities for your information. We will legally comply with such requests if required, which would be providing your provided email address.

6.2 Usability

Freedom Streaming gives you full control of all channel, chatroom, and viewer-based features. It allows you to customize the use of your channel according to your preferences. Please note that some channel options will require Freedom (FDM) tokens as stated in Section 7.1 “Token Usage”.

Features planned, but not limited to:

- **Stream through your webcam** or integrated software such as OBS and XSplit
- **Set customized title and description** to advertise your stream to platform users
- **Ability to ban or kick** disruptive users in your chatroom for a specified amount of time or permanently

- **Ability to create custom moderators** for your channel with self-imposed privileges. Moderators can help manage high volume chatrooms
- **Set password restriction** to restrict access to your channel and create a private access stream
- **Set entry fee restriction** which will allow you to request FDM Tokens to access your channel for the time period specified
- **Create custom emotes** for your channel users to use in your channel
- **Receive donations** from your viewers in the form of FDM Tokens

Freedom (FDM) Tokens

7.1 Token Usage

Freedom (FDM) Tokens are primarily to be used in our platform to access the features listed below. Though they are ERC-20 compliant tokens on the Ethereum network and therefore can be withdrawn to any Ethereum wallet addresses and exchanged outside of our platform. Examples of application uses include the following:

- Donate your tokens to other streamers and users to support their channel and community
- Feature your channel on the front page of the platform
- Upgrade account status to increase visibility to attract more viewers
- Set a password on your channel to create private access streams
- Set an entry fee requirement on your channel to request FDM Tokens for access to your stream
- Purchase emotes or create custom emotes for channel usage
- Set additional moderators for your channel

7.2 Freedom Token Reward System

Streamers can earn Freedom (FDM) Tokens through our reward system. Rewards are issued each month over a period of 10 years. Unclaimed distributions roll over to the following month's distribution. 2,500,000 Freedom (FDM) Tokens will be rewarded each month as follows:

- 25% - Top Monthly Views
- 25% - Top Monthly Follows
- 50% - Active User Giveaways

Freedom Token Rewards

- *Top Viewers Reward:* 25% of FDM token rewards will be evenly allocated to the top 100 streamers based on monthly views. These will be awarded on the first of the month for 10 consecutive years.
- *Top Followers Reward:* 25% of FDM token rewards will evenly allocated to the top 100 streamers based on monthly follows. These will be awarded on the first of the month for 10 consecutive years.
- *Giveaways:* 50% of FDM token rewards are awarded among a randomly chosen 1000 streamers. Their accounts must be older than one month and have at least 1,000 views to qualify. Tokens will be distributed on the first of the month for 10 consecutive years.
- Please note that rewards are not automatically distributed and must be claimed before the 15th of the month. Users are also not eligible for multiple rewards and will only receive one reward a month based on the highest amount.

7.3 Token Transfers

Freedom (FDM) Tokens can be transferred to other streamers and users through the donation system within the Freedom Streaming platform. Also, since FDM Tokens are decentralized assets and part of the Ethereum ecosystem, tokens can be withdrawn to an Ethereum wallet address you request the withdrawal to be made to. Therefore, FDM Tokens can be easily be listed and exchanged on any digital asset exchanges that support ERC-20 compliant tokens.

Addendum

Freedom (FDM) Tokens are not an investment, currency, security, commodity, a swap on a currency, or any other kind of financial instrument, although the tokens may be tradable. No one should not participate in the purchase of FDM Tokens for investment purposes. FDM Tokens are not designed for investment purposes and should not be considered as a type of investment.

The purchase of FDM Tokens: (a) does not provide the buyer with rights of any form with respect to the Freedom Investment Holdings Ltd or its revenues or assets, including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights; (b) is not a loan to Freedom Investment Holdings Ltd; and (c) does not provide the buyer with any ownership or other interest in Freedom Investment Holdings Ltd.

FDM Tokens: (a) may have no value; (b) there is no guarantee or representation of liquidity for the FDM Tokens; and (c) Freedom Investment Holdings Ltd is not and shall not be responsible for or liable for the market value of FDM Tokens, the transferability and/or liquidity of FDM Tokens and/or the availability of any market for FDM Tokens through third parties or otherwise.

The FDM Tokens are intended to serve strictly as application use tokens that are to be used on the Freedom Streaming platform to access features on such platform. Other than the foregoing, FDM Tokens do not have any rights, uses, purpose, attributes, functionalities or features, express or implied.

Freedom Investment Holdings Ltd does not make any representations or warranties, express or implied, including, without limitation, any warranties of title or implied warranties of merchantability or fitness for a particular purpose with respect to the FDM Tokens or their utility. Without limiting the foregoing, Freedom Investment Holdings Ltd does not represent or warrant that the process of purchasing the FDM Tokens or receiving the FDM Tokens will be uninterrupted or error-free or that the FDM Tokens are reliable and error-free.

The company intends to fund the cost of the development of a safe, secure, and anonymous live streaming platform. Funds will also be used to ensure the site remains legally compliant for

operational use as well as marketing efforts. We strive to bring a revolutionary freedom of speech platform to mainstream media.

DISCLAIMER:

Freedom Investment Holdings Ltd hereby authorizes you to use this document subject to the limitations set forth below and provided that any copy or portion of a copy of this White Paper includes all proprietary and copyright notices.

This White Paper is for information purposes only. Freedom Investment Holdings Ltd does not guarantee, warrant or assume any liability for the accuracy of or the conclusions reached in this White Paper. This White Paper is provided “as is”, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OR FREEDOM FROM ERROR. Freedom Investment Holdings Ltd further cannot guarantee that the development of the Freedom Streaming platform will be completed by any certain date or that holders of the FDM tokens will have access to the Freedom Streaming platform.

Any publication of this White Paper may include technical inaccuracies or typographical errors. Changes may be periodically made to these publications. These changes will be incorporated in new editions of these publications. Further, improvements or changes to the products, services, or programs described in the White Papers may be made at any time and without notice.

To the greatest extent permitted by law, Freedom Investment Holdings Ltd and its affiliates shall have no liability for damages of any kind arising out of the use, reference to, or reliance on this White Paper or any of the content contained herein, even if advised of the possibility of such damages. In no event will Freedom Investment Holdings Ltd or its affiliates be liable to any person or entity for any damages, losses, liabilities, costs or expenses of any kind, whether direct or indirect, consequential, compensatory, incidental, actual, exemplary, punitive or special for the use of, reference to, or reliance on this White Paper or any of the content contained herein,

including, without limitation, any loss of business, revenues, profits, data, use, goodwill or other intangible losses. Nothing in this publication is to be considered a license to operate under or infringe on any intellectual property.

The regulatory status of cryptographic tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether governmental authorities will regulate such technologies. It is likewise difficult to predict how or whether any governmental authority may make changes to existing laws, regulations and/or rules that will affect cryptographic tokens, digital assets, blockchain technology and its applications. Such changes could negatively impact FDM Tokens in various ways, including, for example, through a determination that FDM Tokens are regulated financial instruments that require registration. Freedom Investment Holdings Ltd may cease the distribution of FDM Tokens or cease operations in a jurisdiction in the event that governmental actions make it unlawful or commercially undesirable to continue to do so.

The industry in which Freedom Investment Holdings Ltd operates is new, and may be subject to heightened oversight and scrutiny, including investigations or enforcement actions. There can be no assurance that governmental authorities will not examine the operations of Freedom Investment Holdings Ltd and/or pursue enforcement actions against the company. Such governmental activities may or may not be the result of targeting Freedom Investment Holdings Ltd in particular. All of this may subject the company to judgments, settlements, fines or penalties, or cause the company to restructure its operations and activities or to cease offering certain products or services, all of which could harm the company's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the FDM Tokens.

This White Paper is not intended to be, nor should it be construed as, an offer to sell or a solicitation of an offer to buy any security or other financial instrument. This White Paper is not intended to be, nor should it be construed as, a marketing or solicitation vehicle for Freedom Investment Holdings Ltd. The information herein does not provide a complete presentation of the operations strategies or technological approach for Freedom Investment Holdings Ltd and its affiliates and should not be relied upon for purposes of making an investment or divestment

decision with respect to Freedom Investment Holdings Ltd. The information provided on this White Paper is not intended as investment advice or recommendation to buy or sell any type of investment, or as an opinion on, or a suggestion of, the merits of any particular investment strategy.

This White Paper DOES NOT necessarily represent Freedom Investment Holdings Ltd complete or current offerings and practices as of the date of issue of this document. This document is subject to change without notice. Customers are responsible for making their own independent assessment of the information in this document.
