Roadmap

Our team

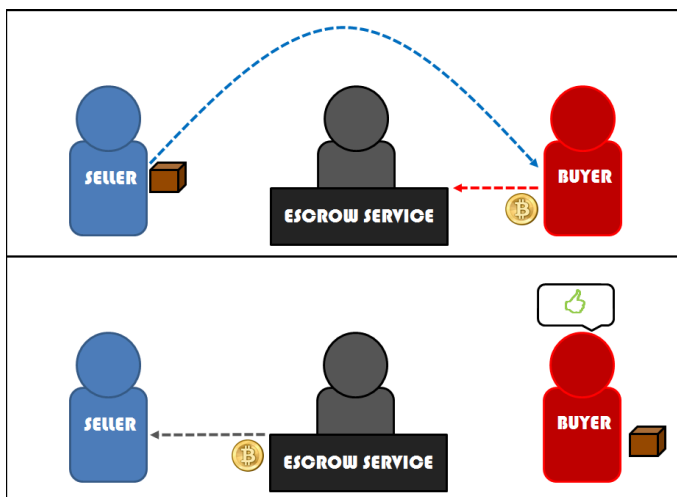

Introduction

Mondo.one - a freelance Stock Exchange, a searching machine for contacts around the world, arbitrage of trades and an open rating system of contractors on Blockchain.

Mondo – in the Esperanto word for "world".

We have an idea of Mondo in January 2017. Our team has been working in the field of freelancing for many years and we often encountered both with unscrupulous contractors and customers. Finally, we launched Telegram Bot named "RateMe" - rating platform for customers (we were inspired by idea come from popular tv-series "Black mirror"). Follow this link to check it out! t.me/ratemebot

This is the idea of uniting the world and erasing any virtual boundaries.

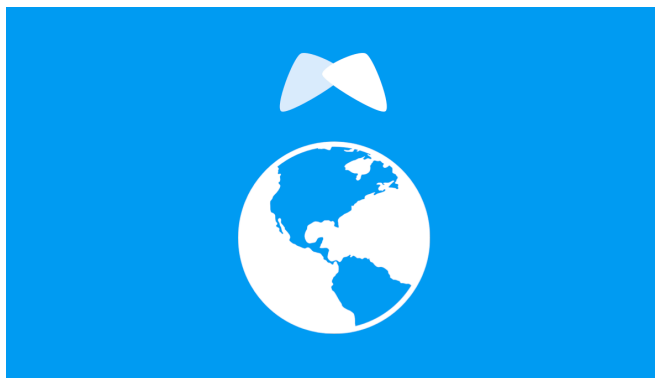

Imagine, you can find any contact you need, regardless what country are you in now. Our service helps you to do it as fast as possible with ongoing support from trustworthy experts. Global searching created not only for looking for freelancers, that's why we will provide expanded search capabilities so you can find any person you need.

During the recovery after an economic crisis a lot of citizens are being offered with less gainful jobs without guarantee of stable placement. It's no secret that freelance is the modern solution of unemployment and the future of universal and effective work.

However, nowadays not many platforms are trying to help contractors by minimizing the commission to withdraw funds from the exchange or, for instance, by automatic daily job search and, that's more important, by trust.

A large number of people do not know how to enter the international markets (Asia, Europe, USA etc). Contact exchange process erases scopes between

countries and their unique characteristics so you will be able to find person, who is ready to help you, wherever he is. We unite the world.

What is an ICO?

<http://forklog.com/chto-takoe-ico/>

<http://www.towave.ru/pub/chto-takoe-ico.html>

<https://rb.ru/story/wtf-is-ico/>

<http://www.forbes.ru/finansy-i-investicii/339863-investicii-cherez-bitkoiny-chto-takoe-ico-i-stoit-li-im-vospolzovatsya>

What is an ICO?

ICO (Initial Coin Offering) is an alternative method of investments raising in the form of "crypto-shares". Each crypto-share is presented in a block-chain token form based on "**smart**" contracts. It ensures 100% fund-raising transparency. Initially, these tokens are **sold** to investors at a **fixed price**. After that, the tokens start being traded on crypto-exchanges. Typically, over time their price multiplies many times.

Problems of analogues

Our main goal - solve problems of other freelance exchanges such as:

- Large commission of withdrawal of funds from the exchange for contractors.
- Mistrust on both sides.
- Non-transparent rating system.
- Limited markets, language barriers.
- Only freelance-oriented trades.
- An outdated and inconvenient verification system.

	BEFORE	AFTER
HIRING CLIENT PAYS	No fees	Payment processing fee 2.75% per payment
FREELANCER PAYS	10% service fee for all contracts	Sliding service fee (20% / 10% / 5%) based on lifetime billings per client relationship

Large commission to
withdraw funds (freelance
stock exchange UpWork)

Choose UpWork as an example. There is limited list for searching. There is no digest for the convenience of users - you need to search and check new offers quite often.

Solution

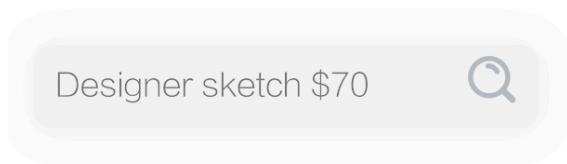

Blockchain **open rating** system for freelancers with **personal links**

Transparent rating system based on Blockchain

1 person = 1 account. Average score and public reviews of each contractor

Escrow solves the problem of mistrust between the contractor and the customer, helps to avoid conflicts. Arbitrage of transactions.

Search for any request, online contractors or offline - no borders, no barriers.

You can post any **job** or **contact** search all around the world

Minimization of commissions on the side of the service. Earnings for token holders, savings for active users

Mondo Tokens (MND)

Smart contract <https://github.com/mondoone/smartcontract/blob/master/Mondo.sol>

Mondo Tokens (MND) based on Ethereum.

```
85
86 ▼ contract Mondo is SafeMath, StandardToken {
87
88     string public constant name = "Mondo Token";
89     string public constant symbol = "MND";
90     uint256 public constant decimals = 18;
91
92     uint256 private constant tokenCreationCapPreIC002 = 5000000*10**decimals;
93     uint256 private constant tokenCreationCapPreIC015 = 11000000*10**decimals;
94     uint256 public constant tokenCreationCap = 23500000*10**decimals;
95
96     address public constant owner = 0x0077DA9DF6507655CDb3aB9277A347EDe759F93F;
97
98     // 1 ETH = 280 USD Date: 11.08.2017
99     uint private oneTokenInWeiSale1 = 70175438596491; // 0,02 $
100    uint private oneTokenInWei1Sale2 = 526315789473684; // 0,15 $
101    uint private oneTokenInWei = 5473684210526320; // 1,56 $
102
```

* Proof of community.
All decisions will be approved
with token holders votings.

1 MND 17 October - 31 October **\$0.02 (Early bird) (\$14 000)**

1 MND 18 November - 31 December **\$0.50 (Sale) (max \$200 000, if > \$0.75)**

1 MND 1 January - **\$1.50 (Fix cost)**

Token Distribution

<https://medium.com/@mondoone/mondo-mnd-token-distribution-8172a59c1beb>

How to buy tokens

<https://medium.com/@mondoone/how-to-buy-tokens-e203a2541abc>

Distribution of funds.

Main item of expenditure - development and scaling (45%/..20%)/. Investors (and bounties) - 10%. Fee deductions (for marketing purposes) - 2%

The structure (beta Q1 2018)

(Development)

Search by contacts,

freelance stock exchange,

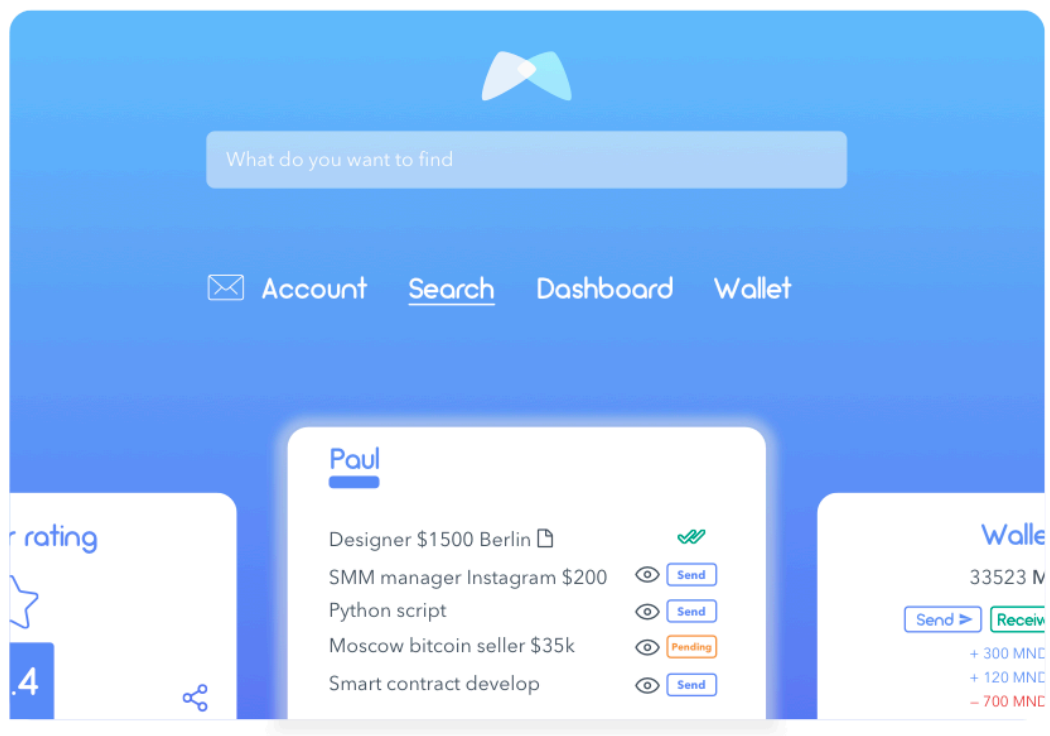

rating platform,

integration with Telegram / Facebook Messenger / Status

beta app iOS / Android (Q2-Q3 public)

our own stock for changing tokens MND <-> Fiat,

System of secure transactions.

Market Review

“As of March 2017, Upwork reported 14 million users in 180 countries with \$1B in annual freelancer billings. “

“Australian labour exchange marketplace Freelancer surpassed 25 million users on Tuesday – and the company kicked off a \$US25,000 crowdsourcing challenge to celebrate. [businessinsider.com.au/freelancer-just-hit-25-million-users-and-4-8-million-are-from-one-asian-country-2017-8](https://www.businessinsider.com.au/freelancer-just-hit-25-million-users-and-4-8-million-are-from-one-asian-country-2017-8)”

Commission **5-10%**
Tree million jobs are posted annually,
worth a total of **\$1 billion USD**

Freelancers earned an
estimated **\$1 trillion** this
year

LinkedIn have **300 million** people all
around the world.
27 billion dollars

Freelancers takes a **10% fee**,
which can be reduced with
paid monthly membership,
with a minimum **fee of \$5**.
21 million people

Hubspot revenue is **270**
million \$

And there's **no** any services
without cheep fee, who can give
you **any contact** all around the
world. And you can use **escrow** to
protect your money.
It's **Mondo.one**

Monetization

The internal exchange will allow people to change tokens for Fiat and vice versa. The main earnings of Mondo - commission for placing an application for tokens (the price of which changes on the exchange).

Commission for arbitration transactions (Escrow) for tokens.

Q3 2018 Paid Pro accounts with some privileges.

Benefits for investors (example)

1.2342 BTC

+10 

Fiat **intefration**

Using tokens within the system for using Mondo's internal services

For example, if you managed to buy tokens during pre-ICO 1 for \$ 0.02 and their ICO value is traded for \$ 1.56, so then you can sell them 78 times more!

Roadmap

- 2016
Open rating system
Telegram bot with
anonymous reviews
(4000 people beta testing)
- Q1 2017
Idea with open contact
sharing service, **market
research**
- July 2017
Whitepaper, smart
contracts, preparing for
Pre-ICO
- Q3 2017
ICO
- Q1 2018
Launching
Public beta release
- Q2 2018
Stable
Scaling
