· LOOPX IS A BLOCKCHAIN BASED INVESTMENT NETWORK,  
BASED ON THE STATE OF THE ART LOOPX TRADING SOFTWARE.

"The arrival of electronic currencies could revolutionize the way we pay for goods and services, in much the same way as the Internet shook up how we access information."

# PREAMBLE

---

The purpose of this document is to provide information regarding the LoopX project, its core conceptual idea, business model, competitive advantages, team, ICO details and roadmap towards the 1st Minimum Viable Product. A more technical description of core architecture and APIs will follow after the ICO funding phase. LoopX started from a simple idea. Trading in this everchanging market, with its complex technical, fundamental and macro analysis, should be accesible to everybody willing to take the risk and invest to have profits they never dreamed of. The rise of debt and inflation in this world gave us the blockchain and its endless advantages. Finally the opportunity is here for the common investor to be part of a revolution and be finally free, financially free. Our top priority is to give you an opportunity to sit back , let us do the work and watch your money grow.

After condensing the original concept into a pitch presentation, we relentlessly reached out to interested partners and organically built our team. Along this journey, we found great partners and mentors who were strongly committed and excited to work with the ever-progressing vision of LoopX. Now as we drive towards the ICO stage, we thank everyone that supported us and hope to surpass the expectations set forth by the community in the future.

This whitepaper has been published on 15 November 2017. We recommend following updates on the LoopX website and other official media channels, for new information and updates.

# VISION

---

LoopX will publish a revolutionized Peer-to-Peer trading platform where users as easy as a mouseclick can give us the opportunity to put their money to work. We programmed the most advanced Trading-Algorithm in the cryptocurrency market to date and will continue to make it better every day. Cause the market never stops and so won't we. We believe the crypto community should act and work as a big family to help each other benefit from this incredible possibilities out there at this very moment.

The time to act is now. We did it and so should you.

# WHAT IS LOOPX AND HOW DOES IT WORK?

---

Trading-Algorithm and software are nothing new in the financial market and are proven to be successful. Our core team is working in the financial sector successfully for years.

We saw the opportunity to put our knowledge to work come last september when the cryptomarket began to sky rocket. After developing over months and testing successfully over half a year with great profits, we can release now with great confidence the LoopX Trading Algorithm. This software will give us all the opportunity to make more money online than we could ever do in real life. Our software handles over 10.000 trades per second and calculates over 100 currencies at a time. Always looking for those opportunities to make profits bigger than 10%, which will be payed out to our members on a weekly basis. This was not thinkable in the normal financial sector, but has become reality in the cryptoworld. To let you invest with ease in our company we built a Peer-to-Peer Lending platform where you can watch your investments grow in real time.

The more people will invest in our platform the more profits we can provide. Easy as that, the bigger the community, the more valuable your LoopX Coins will become and therefore also your FIAT currency.

# WHY LOOPX?

---

Because the time is now!

The opportunities to profit in the cryptocurrency market at the moment are sheer endless, but won't last forever. Our Team is working every day to keep our software up to date with the occurring market and foresee upcoming trading opportunities without being fooled by fake news and people who are trying to manipulate the market. We all do this every single day so you don't have to worry about all of this. The only thing you should follow is the weekly newsletter which we send out to all our members.

WE ARE PASSIONATE TO CREATE A COMMUNITY WHICH WILL HELP YOU EVERY STEP OF THE WAY. WE WILL BE THERE FOR YOU.

# WHY YOU SHOULD INVEST IN LOOPX DURING THE ICO?

---

The cryptocurrencies are at their beginnings. Imagine being able to walk in a Start-up hub in San Francisco in the early 2000s and get a chance to invest in those now biggest companies we know. Like Apple, Amazon, Instagram, Snapchat, Reddit, Twitter or Google. If you would had invested in those companies back at their beginnings just a small amount, you would be a multi millionaire today. Now is the time , now you have this opportunity. Many of these new tiny ICOs will become multi-million or multi-billion Dollar companies. And no one can hold you back from investing today. It is no secret that big investment banks, are building their own trader teams for crypocurrencies and if they do it why don't you get your own trader team! With LoopX you have a team of highly trained professionals with a software which is capable of beating all other AI Trading Bots out there, not further away then a mouseclick. Everyone who is willing to invest now in the immensely growing market of crypocurrencies will be likely very successfull, because the projection of the overall market cap are in the trillions. So more than 10 times more than the market cap at the moment. LoopX Pre-ICO will launch on January 3, 2018, which will be the start oft the public sale of LoopX-Tokens. The maximum supply of coins will be 10.000.000. 8.200.000 will be available to buy in the Pre-ICO and ICO Phase at mostly discounted rates. The ICO will start on January 10, 2018 and will consist of 5 rounds. Each round will last 4 days. The prices per coin will increase with each round. After 5 rounds, the sale will end. The coins sold will be distributed to the registered wallet of the users within 3 days.

18% of total LPX-Coins have been offered to strategic investors and partners. This enabled the LPX project to kick-off and provides funding for advertisement and campaign. LPX-Coins held by strategic investors are frozen until 6 months after crowdsale has ended.

All leftover coins will be burnt after the crowdsale except otherwise decided by the community. We are very optimistic there will be no leftovers.

# LENDING PROGRAM

---

Our LoopX Trading Software facilitates more than 10.000 transactions per second in high yield exchange coins with major cryptocurrencies like Bitcoin and Ethereum on exchange platforms.

Applying this to LPX, you can get up to 48% return within 30 days by lending LPX to LoopX. You can invest in in LoopX to receive weekly interests. The interest per month ist up to 48% of your lending amount. The more you will invest in the lending platform, the better interest rate you will get.

## MONTHLY INTEREST RATE UP TO 48%

Lending Amount	Interest	Capital back
\$100 - \$1,000	Weekly Var. Rate	After 149 Days
\$1,001 - \$10,000	Weekly Var. Rate + 0.10%	After 119 Days
\$10,001 - \$30,000	Weekly Var. Rate + 0.20%	After 99 Days
\$30,001 +	Weekly Var. Rate + 0.27%	After 79 Days

# BALANCE BONUS

---

You can simply stake your LoopX Coins in your wallet to earn new coins.

How does this work? In the blockchain there exists something called Proof of Stake (PoS). That means, if you just leave your coins in the wallet for a certain period of time you get rewarded with new coins. Because you leave them with us, we from LoopX are now able to use them as leverage on high speed trades. There is never just one trade going on, but always multiple hundreds of them. That guarantees you that you will never lose your PoS Coins in your wallet. This is a great way of making passive income. By keeping a specific amount of tokens in your wallet, you provide security and stability to our system.

## Period

First year	8% per month
Second year	6% per month
Third year	4% per month
