

MOBILE BLOCKCHAIN COIN

THE NEXT REVOLUTION CRYPTOCURRENCY

WHITEPAPER
UPDATE DECEMBER 25th 2017

MOBILE BLOCKCHAIN COIN

Mobile Blockchain Coin (MBCC) is a new decentralised self regulated cryptocurrency and digital payment system that will change the financial world in Peer to Peer "P2P" network.

The system is peer to peer and transactions take place directly between users with the help of blockchain technology and without the involvement of a third party like government or banks.

It means money can be sent from one person to another from any part of the world instantly with very low fees.

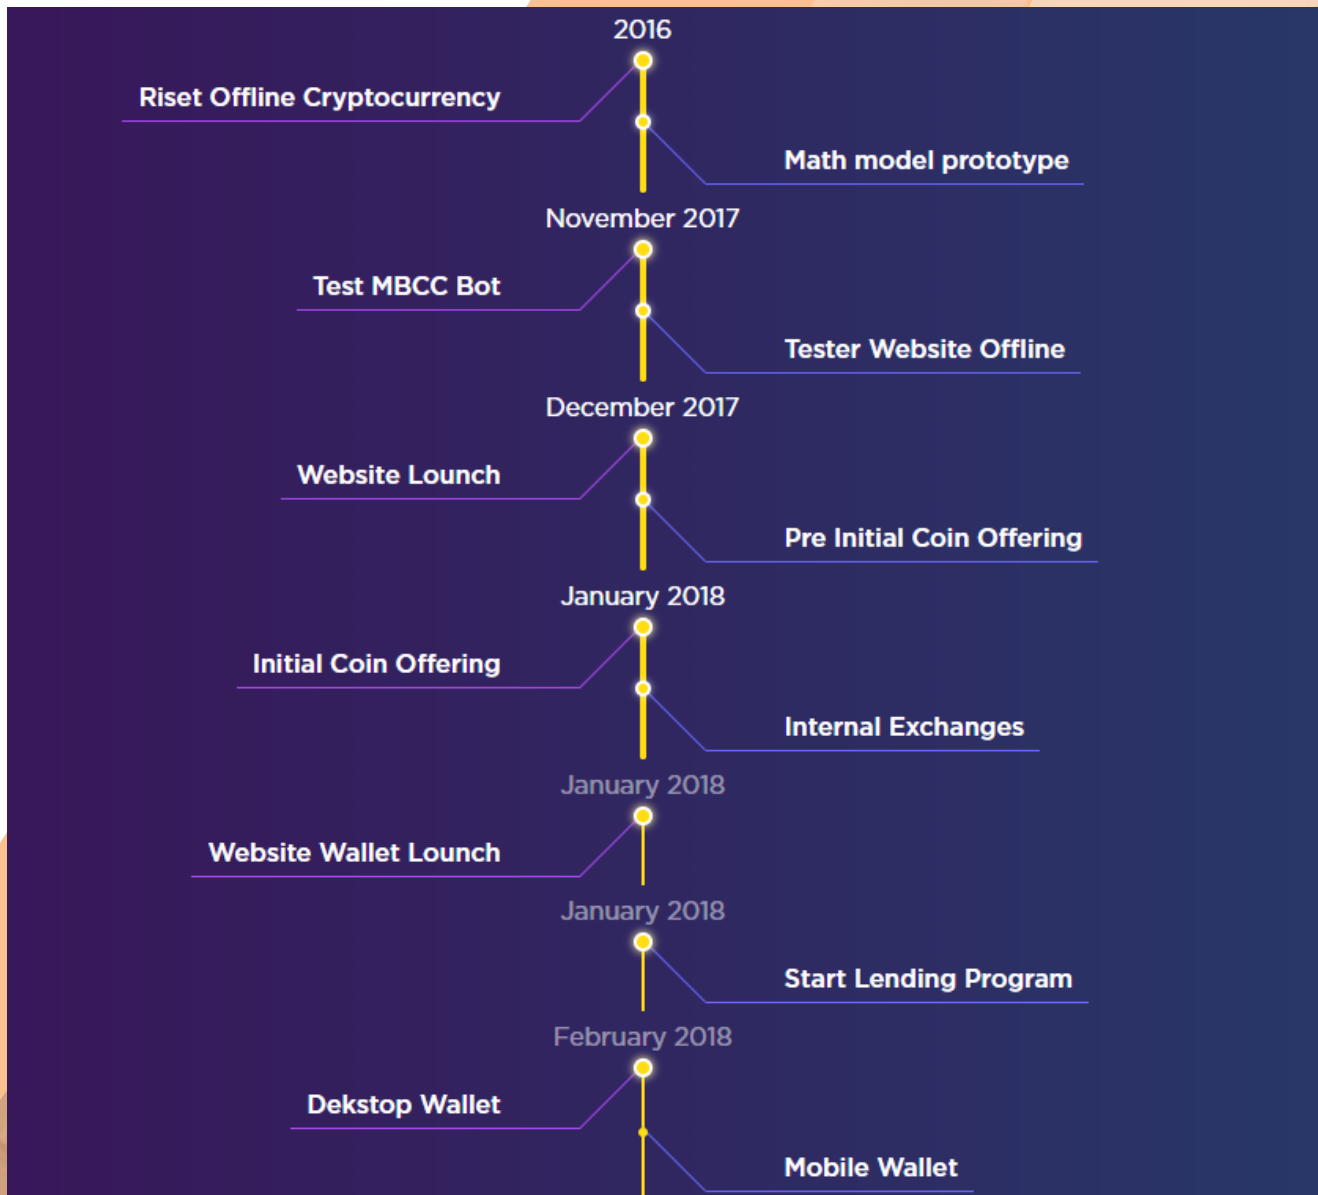

All transactions can be seen on blockchain but people can't see which transaction is done by whom.
