BETSTREAK

about Betstreak

<https://www.betstreak.co> is one of the few **Licensed Bitcoin gambling site**, launched in Aug 2016, and has since grown to become the most trusted and one of the most popular Bitcoin gambling sites with **over 3,500,000 Euro** and 1500 BTC wagered and earned **over 2150 BTC profit**.

We accept fiat currencies such as EUR, USD, CNY as well as Bitcoins, and all our games are with licensed providers. We are **listed as Askgamblers' top 10 casinos**, with a high score of 9.23/10 with many trusted reviews and satisfied customers. We are also listed in many review and affiliate sites such as GPWA, Latestcasinobonuses etc.

Currently, we have **8000 registered players**, with more players joining every single day.

We are looking to develop a new platform to accept different types of crypto-currency to allow players to wager their different cryptocurrencies on one platform. We are looking to make www.betstreak.co and crypto gaming grow even bigger and inviting you to be part of it and share the success.

problem with Crypto-Gambling Market

Online Gambling is a 46 Billion USD market in 2016, and is poised to grow to 58 Billion USD by 2018. Currently, less than 5% of this market support cryptocurrencies as payment.

Cryptocurrencies are poised to take over fiat currencies betting markets as they allow micro-payments (up to 0.001 BTC per bet as compared to 1 EUR/USD per bet for traditional Casinos). They also allow players to bypass expensive credit card charges and wire transfer charges, which translates to greater savings.

Big player such as Pinnacle casino, bet365 casinos only accept fiat currencies. Even within crypto casinos such as satoashidice.com and etherroll.io, many of them do not hold a valid gaming license, which will pose a problem for players and operators alike, as gaming is a highly regulated industry.

Within the small group of licensed online casinos that accepts cryptocurrencies, **most of them only accept only bitcoin as payment**, and other crypto currencies are not usable on their platform.

BETSTREAK

our Offering

Betstreak.co is the **First Licensed Blockchain Casino** that seeks to address these problems, we currently hold a valid gaming license from Curacao (<https://validator.antillephone.com/validate?domain=www.betstreak.co>) and we currently accept bitcoins and fiat currency for all our RNG games* and Live dealer games.**

Casinos with valid gaming licenses are important as they allow players to have a piece of mind while playing, and still be within legal boundaries. Unlicensed casinos are subjected to scams, raids by authorities and will be forced to shut down, forcing players to lose their deposits.

Why Should you Invest?

Betstreak is one of the most well known Bitcoin gambling sites and has been the most profitable betting site **with over 2150 Bitcoin and profit in the past 1 year alone.**

This popularity and profit has been from only four game providers with very little marketing.

We are looking to raise investment so we can develop more products including our own crypto currency payment platform and incorporate more game providers, as well as include Bitcoin Sportsbook and Poker platforms

With your help we can market each of these products to grow www.betstreak.co into the **leading crypto gambling destination.**

BETSTREAK

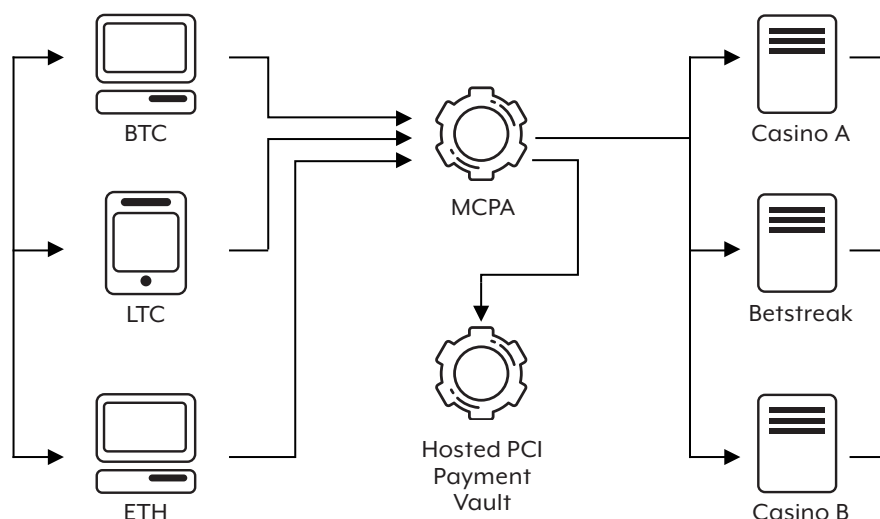

Multi Coin Platform API (MCPA)

We are working to develop a Multi Coin Platform API (MCPA) to allow different cryptos to be played with existing casinos platform. Due to heavy regulation in the Casino Industry, game providers and payment processes are still mostly using fiat to transact. Within the limited number of bitcoin casinos, bitcoin is still being used extensively for playing of games and in-game currency.

The MCPA will allow players to use any coin (LTC, ETH, BCH etc) to play and transact using their native coins. Players do not have to worry about exchanging their coins or exchange rates losses.

MCPA can also be used as a API plug-in for other licensed casinos, hence we can use this as one of our main revenue stream as we charge a fee for the usage of the MCPA.

BST advantage

1) Profit-Sharing

Betstreak.co will retain 25% of net gaming revenue (NGR)* to pay out to existing BST holders every bi-yearly.

BST holders can choose to submit their tokens to our ico page, www.betstreak.co will use 25% of NGR to buyback 5% of public's BST token, based on a balloting system on the site.

We aim to list BST by end 2017 to various major exchanges to facilitate trading of BST among stake-holders.

*NGR is defined as Gross Gaming Revenue (GGR) – Wins – Bonus – Transactional fees.
