Abstract

In recent years Cryptocurrency markets booming widely, it's become Now more than \$300 billion and growing rapidly.

Because of the volatile nature, crypto markets are tricky and unstable, It's always hard to figure out the market and behavior of coins and The same time it's very hard to track every single crypto coin. Crypto Traders consistently deal with the market movement and fear of loss, To clear up the situation traders goes through different platforms and Try to decode the market mystery.

This whole intellectual process gives lots of pressure and many Questions.

Trading Bot

- ▶ Each bot is set of indicators and parameters that when all align will make a buy or sell signal, telling the exchange of your choice to execute a trade.

Artificial Intelligence

- ▶ According to the father of Artificial Intelligence, John McCarthy, it is “The science and engineering of making intelligent machines, especially intelligent computer programs”.
- ▶ Artificial Intelligence is a way of making a computer or a software think intelligently, in the similar manner the intelligent humans think.

Cryptonod

- Cryptonod system based on deep learning (Self-teaching system).
- “Deep learning” develop statistical and mathematical models of prediction and probability to calculate the short-and-long term outcomes of the various crypto trading platforms.
- Specially designed for recognizing the finer nuances.
- Evaluate or estimate the nature, quality, ability, extent, or significance.
- Using technical analysis and machine learning, can create optimal trading strategies in order to exploit the market.
- Power of human intelligence, professional market forecaster.

Trading Problem

Crypto markets are volatile, trading cryptocurrencies is always a risky business, it's impossible to figure out all factors and finer points of crypto market. Money can be come and gone in the blink of an eye.

Each of the available cryptocurrencies pumps and dumps based on different parameters, Which makes crypto market difficult to find the right time for investment to earn or maximize profits and avoid losses. So, investing in top cryptocurrencies is a highly complicated process.

Profitable trade is not only painful for new traders, it's also challenging for experienced traders.

When crypto market is going to bounce and when it is going to crash?

The price goes up should traders buy more now before reaching high or cash out?

The price goes down should traders sell, hold or buy more coins.?

Solution

Cryptonod Solution

Cryptonod provides a solution for those finding for an easy way to enter cryptocurrencies and an effective strategy to investing intelligently.

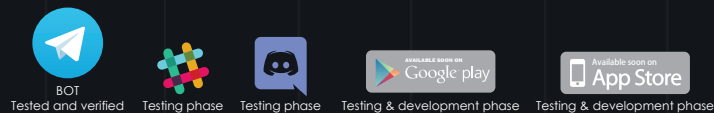

Cryptonod work on:

- ▶ Market behavior and Traders behavior.
- ▶ Science behind the currencies and future prospects.

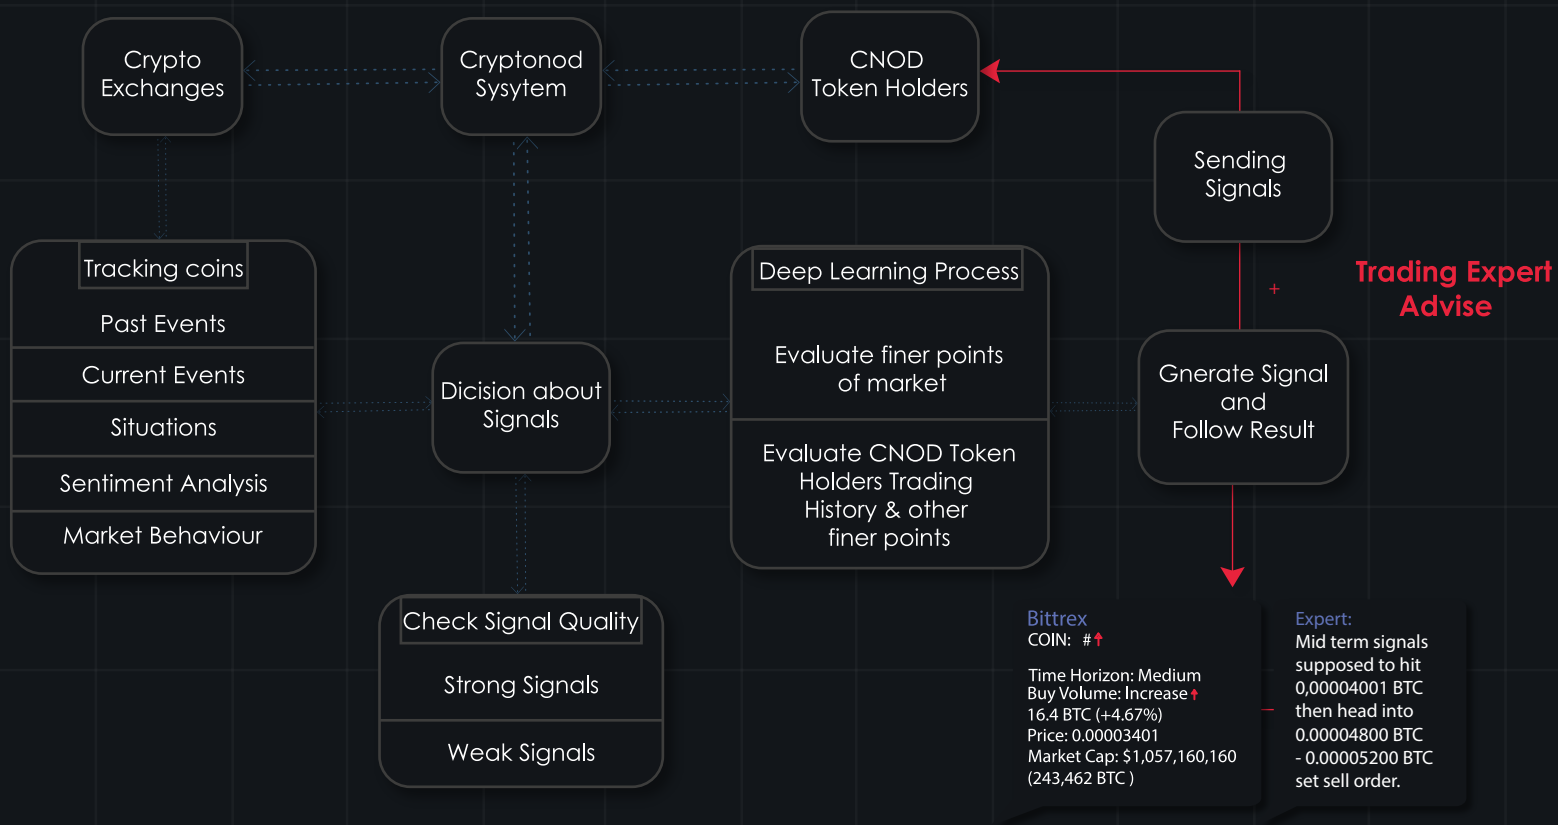

After analyzing the vast data cryptonod provide real time trading signal, required information and expert supervision.

Technology for Solution

- ▶ All signals, notifications, and advises will be provided on below given platforms.
- ▶ Some platforms are ready to use after ICO and some platforms in development phase.

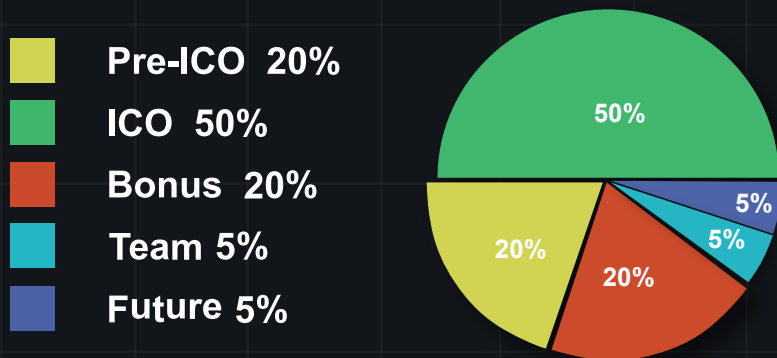

How it works

ICO and Token Distribution

Token Name	-	Cryptonod
Token Symbol	-	CNOD
Max Token Created	-	40,000,000
Platform	-	Waves

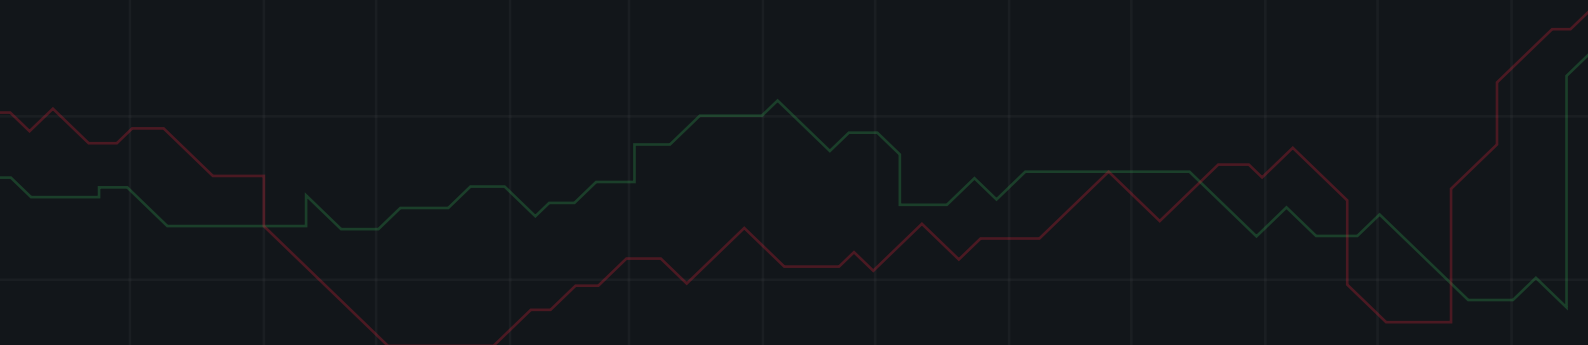

- 70% of all tokens will be distributed in crowdsale
 - 20% during the Pre-ICO.
 - 50% during the Ico.
- 20% of all tokens will be used as bonus.
- 5% of all tokens will be assigned for team.
- 5% of all tokens will be assigned to develop Cryptonod platform in future.
- ICO will be in two phases:
 - 1st Phase Pre-ICO
 - Start Date: December 20, 2017 at 15:00 UTC
 - End Date: January 10, 2018 at 15:00 UTC
 - 2nd Phase ICO
 - Start Date: January 11, 2018 at 15:00 UTC
 - End Date: February 25, 2018 at 15:00 UTC

Bonus and Other Parameter

Period	Bonus
Before 20 December	40% + 5 %
Pre-ICO	40%
Ico 1st week	20%
Ico 2nd week	10%
Ico 3rd week	5%
Ico 4th week	0%
ICO 5th & 6th week	0%

Chart : Pre-ICO and ICO Bonuses

- 1BTC = 28,170CNOD or 1CNOD = 0.0000355BTC
- Tokens can be purchased for BTC, WAVES, ETH, LTC and ZEC.
- For investing more than 20 BTC or 443ETH we offer extra 5% bonus.
- Tokens will be distributed after verifying the result within 10 days.
- All investors will be able to withdraw their tokens to waves wallets.
