Introduction

Abstract

In this paper, we will focus on 3 pillars of our project and application based on blockchain technology. The 3 pillars of our project are sports, travel & tourism industry, and trading. The purpose of this document is to illustrate the vision of MACHTCOIN, explain the problems we are solving from 3 pillars of big business which is sport, travel & tourism, and trading, and how we are going to achieve our goals in the future with MACHTCOIN project.

A Short Brief

Creating our future with Machtcoin

In the era of blockchain technology, a decentralized database and transaction is needed for every aspect of life to avoid any manipulation from third parties and agencies. We highlight the big business in the world that expanding in every year. Based on the power of knowledge, we will build an advanced eco-system application based on blockchain for 3 pillars we choose since they are rapidly grow exponentially in the future (sport, travel & tourism, and trading). We will simplified any transaction to its basic principle of intrinsic value of decentralized economy and collecting The big data network with lower fees, transparent, fast transaction, and bring profits for our community. We considered MACHTCOIN as an adrenaline to boost your fulfillment of needs in our 3 pillars of MACHTCOIN project and cryptocurrency. Let's talk about 3 pillars of our project in MACHTCOIN.

Sport is a high profile global business, which excites and entertains, builds allegiances and generates intense rivalries. In a 2014 report, leading management consulting firm A.T. Kearney estimated the global sports industry to be worth approximately \$600-700 billion. The same year saw investments to the tune of \$1 billion poured into sports-tech startups around the world, underlining just how much potential these new-age ventures hold. These investments are indicative of an industry-wide impetus of investment into sports-tech startups. Every aspect of sports consumption – from live fan engagement, player performance, talent identification, content delivery, consumer tracking/insights, and viewer experience – is set to be revolutionised and transformed by some ventures.

A Short Brief

One of the biggest industries today is travel and tourism industry. In recent times, it had a global economic contribution of above \$8 trillion. The direct economic impact of this industry, including entertainment, attractions, accommodation, and transportation, was approximately \$2.3 trillion. Also, the travel industry is still the fastest rising sector internationally. The industry is massive. Over the longer term, growth of the travel and tourism sector will continue to be strong so long as investment and development takes place in an open and sustainable manner.

On the other hand, trading industries has grown significant also in recent times. Total trading revenues for the 5 largest U.S investment banks exceeded \$21.3 billion in Q1 2017 – roughly 15% higher than the figure for the previous as well as year-ago quarters. In fact, this was the best period for these banks in terms of total trading revenues since Q1 2014 – something that can be attributed to the seasonally boosted trading levels for the first quarter of the year, coupled with increased volatility in interest rate trading as the Fed sticks to its plan of gradually normalizing interest rates.

We are confident to bring all the 3 pillars of our project into existence based on blockchain technology. Through MACHTCOIN Application, consumers will use multiple devices, and can have an intuitive and seamless experience across all applications. MACHTCOIN engineers intend to focus on a mobile-first and user-centric design strategy to drive consumer preference for their payment products or transaction while we open for big data mining to all user.

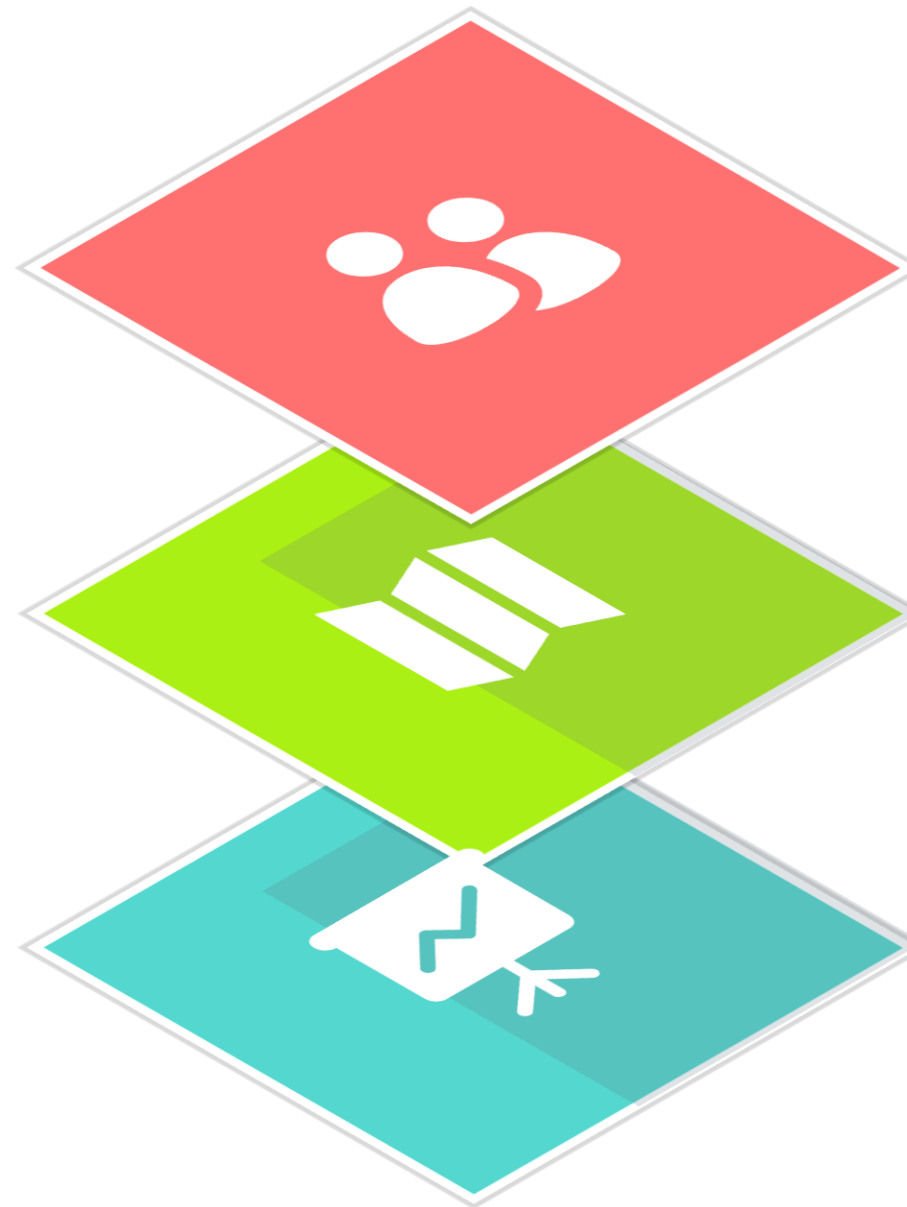

3 Pillars of Our Project

Sport

In our eco-system application, we will provide sport books for many sports and betting games fantasy. Merchandise store will be available also in MACHTCOIN application.

Trading

Trading platform will be available in our application using traditional trading method and binary option method for you has interest in trading major cryptocurrency pair.

Travel & Tourism

We will provide and cooperate with any commercial travel company and any local travel services all over the world. Partnership and bounty programs will be held with data mining from all user and they will get reward for providing geo-tag travel destination and selfie photo. Our big data will processed to become database in our application for travelers to choose recommended travel destination.

Grand Ideas

Idea 4 – Eco-system Application

Create an eco-system application for users and community with ease of use and low cost fees for any transaction

Idea 5 – Partnership

Create business partnership from C2C (consumer to consumer), B2C (business to consumer), and B2B (business to business) in our eco-system application

Idea 6 – Champion Smart Card/Debit Card

Champion Smart Card or Debit Card will be launched for you based on your MACHTCOIN deposit.

Idea 3 – Build Champion Community

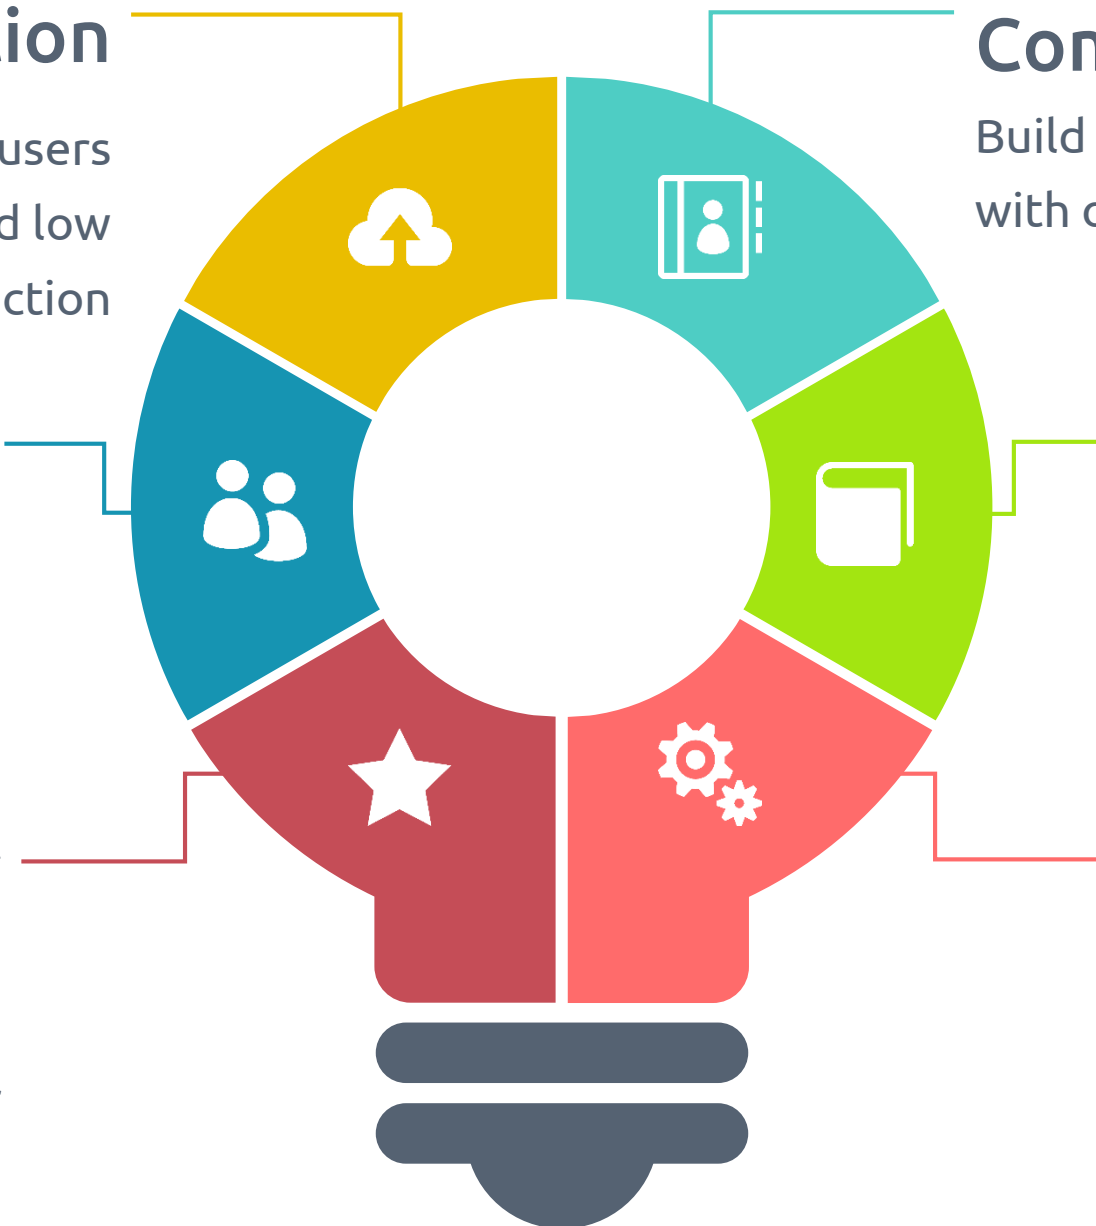

Build and grow MACHTCOIN community with our revolutionary business plan.

Idea 2 – Hybrid POW/POS

Hybrid MACHTCOIN cryptocurrency to ensure stability, reduce inflation rate, and fairly distribution of MACHTCOIN.

Idea 1 – MACHTCOIN Champion Infrastructure

Build MACHTCOIN infrastructure based on blockchain technology.

MACHTCOIN

Champion ideas

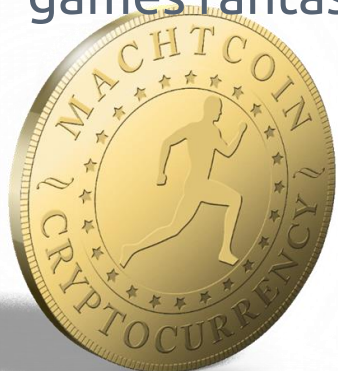

Genius Points

Cost effective

With our integrated eco-system application, a very low cost fees will be implemented in every transaction for sport books and bet games fantasy, travel booking and services, and trading.

Fast & Secure

Anonymity, transparency, fast, and secure transaction is our priority for all users, MACHTCOIN holders and community

Multi devices

You can use and access MACHTCOIN application in any devices, anytime, and any place.

04

Total Supply

36,000,000 MCH

05

Pre-Mined (ICO)

8,000,000 MCH

06

POS

18% Annually reward

Integrated Eco-system Application

Virtual Debit Card

In the development phase 2, we will implement virtual debit card that can be used for any transaction in any country.

Trading Tab

Consist of trading platform with conventional/traditional trading and binary option method.

Sport Tab

Consist of sport books and betting games fantasy. In the future there will be sport news, live stream and merchant store.

Internal Exchanger

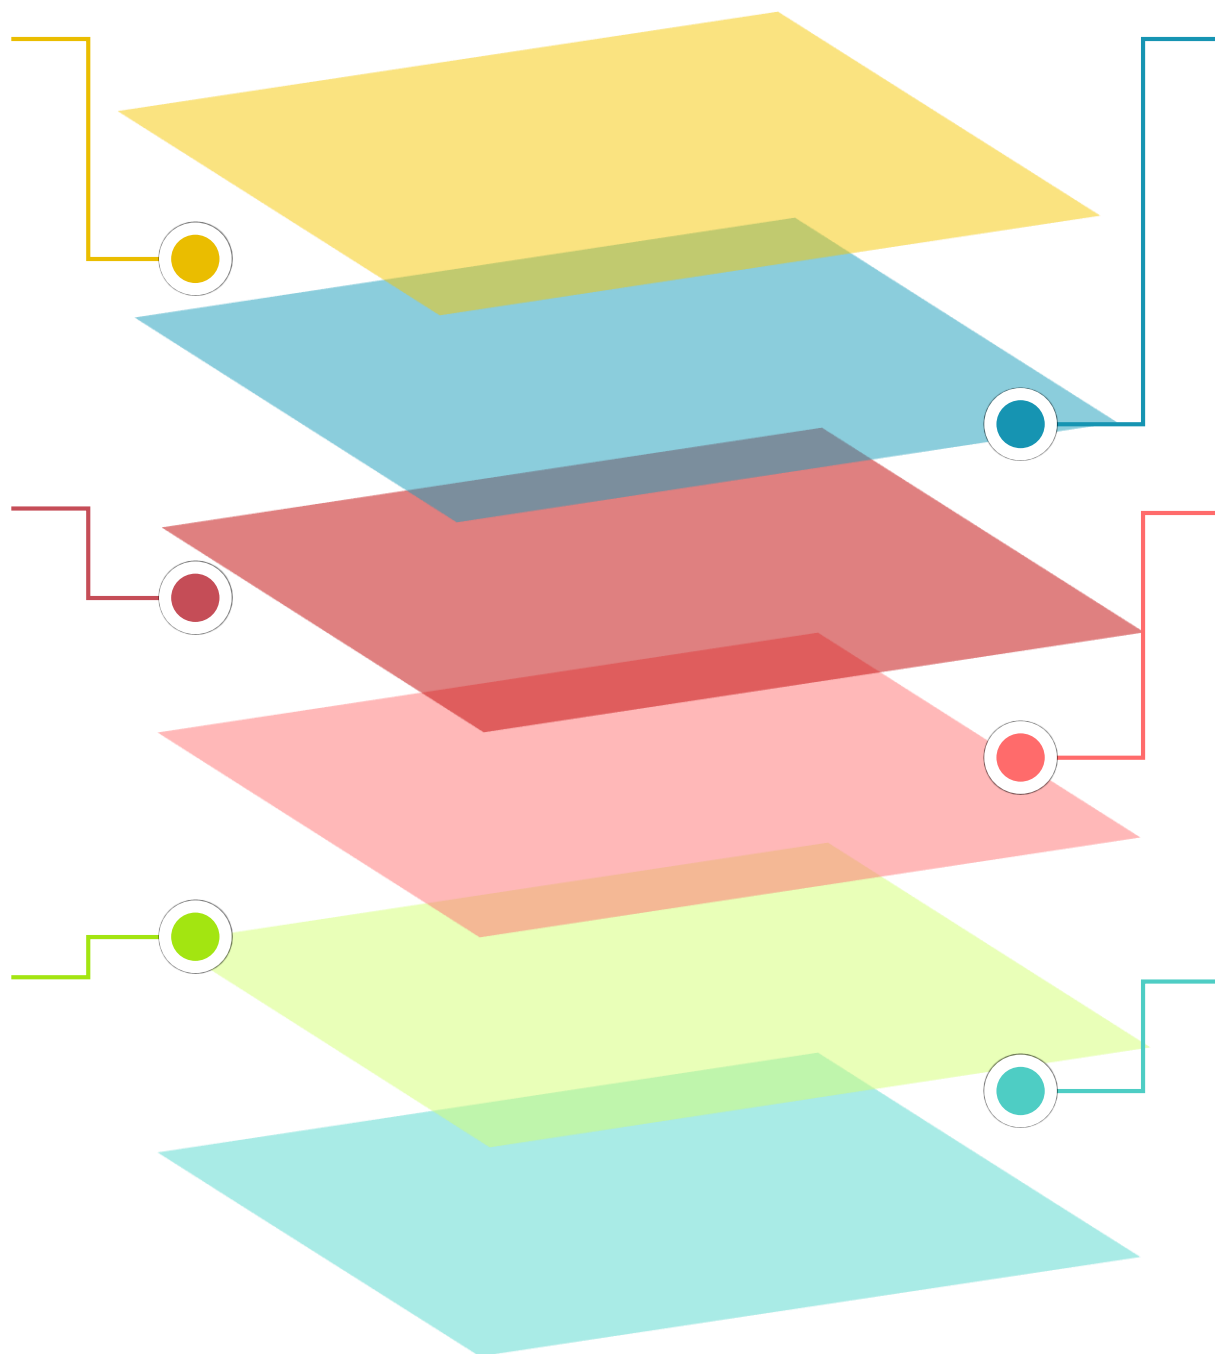

In the development phase 2, we will implement internal exchanger in our application for MACHTCOIN holders and user.

Travel & Tourism Tab

Consist of travel online booking, upload section for travel destination based on geo-tag and selfie (you will get reward), and travel services

Application Interface

Web based and application based with user login and 2FA (two factor authentication)

Multi Devices

You can access your MACHTCOIN account in any device, anytime and anywhere

MACHTCOIN ICO
&
FUNDS
DISTRIBUTION

Initial Coin Offering

Starting Date

ICO start on **15th January 2018** for
25 days

Starting Price

ICO start at price **\$0.88**

ICO Supply

There are **8,000,000 MCH** pre-mine
for ICO. Only **320,000 MCH** sold per
day to ensure fair distribution of
MCH

Price Rate

Price rate will rise about **\$0.10** per 3
days. Please be early to start buying
MCH in ICO period

Funds Distribution

BOUNTIES

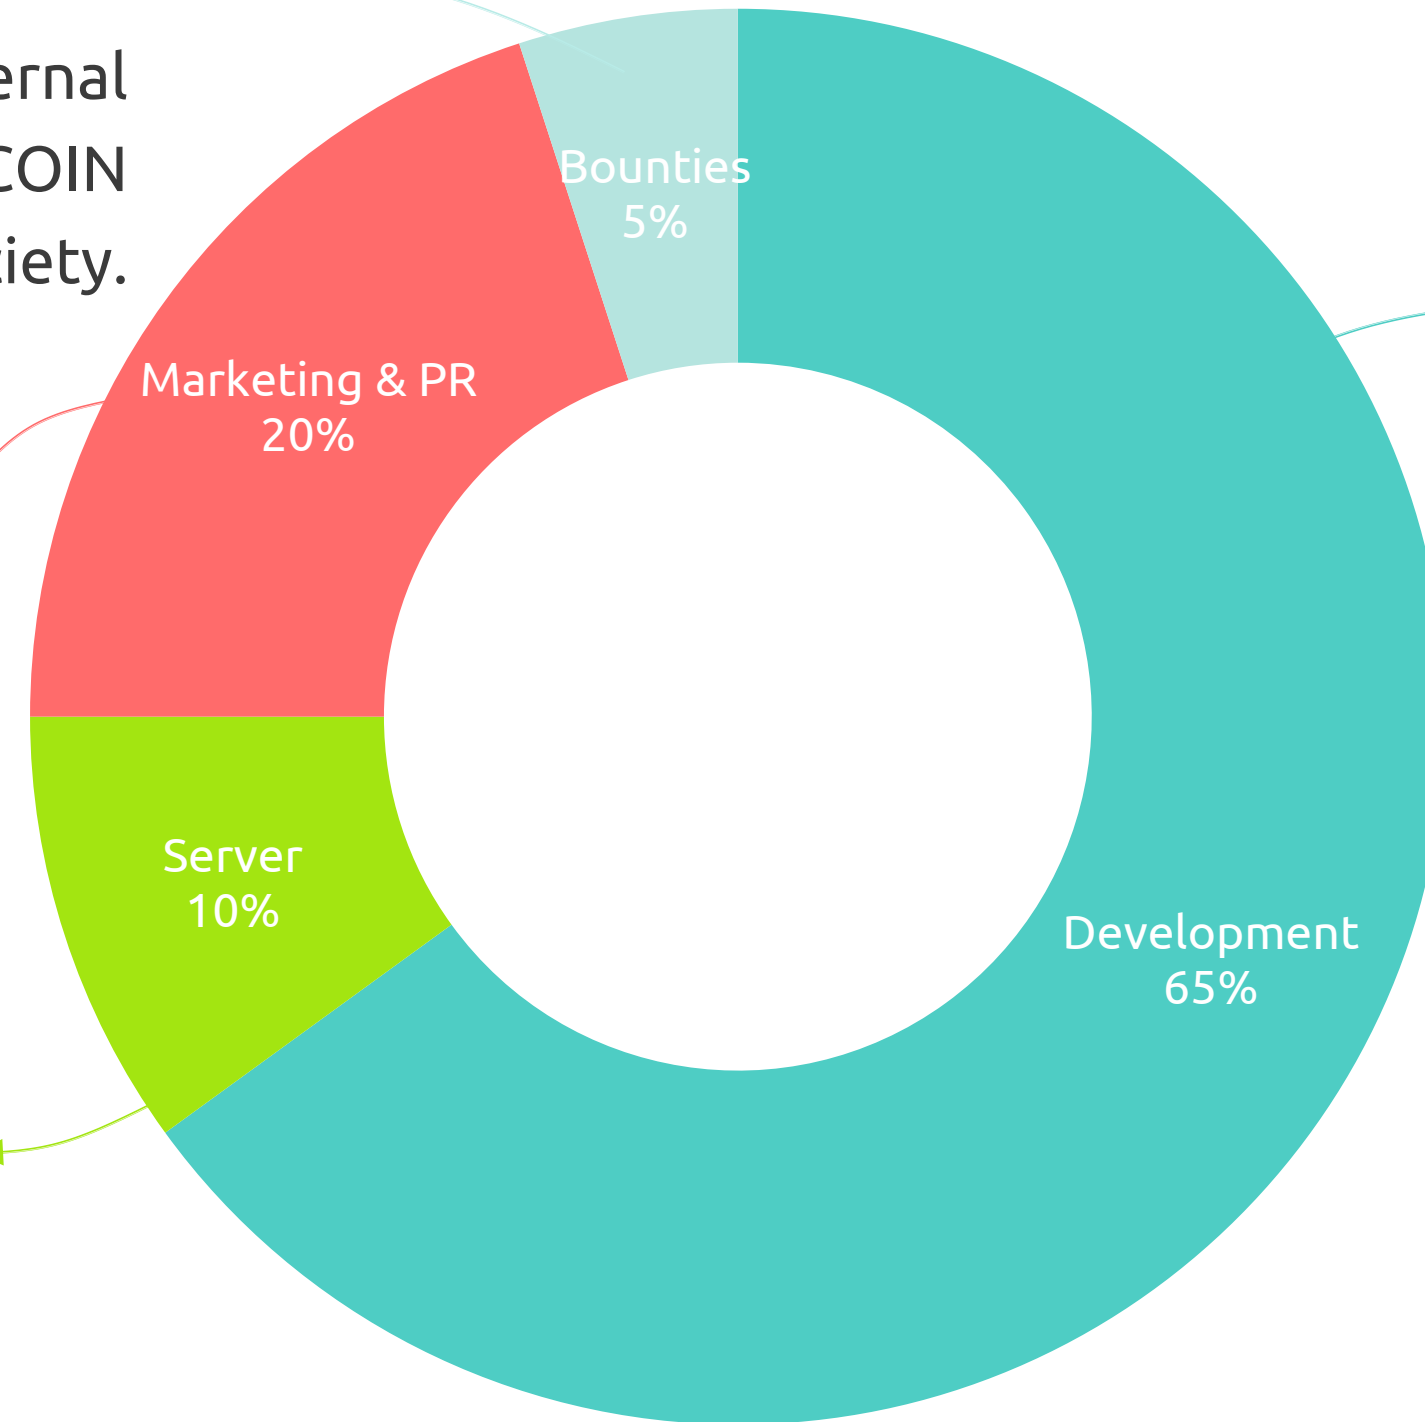

Funds allocation for external resources to make MACHTCOIN known in the global society.

MARKETING & PR

Funds allocation for MACHTCOIN brand awareness and marketing campaign by using ATL (Above The Line) & BTL (Below The Line) marketing method.

SERVER EXPENSES

Funds allocation for server resources and expansion that we use for blockchain, mining pool and cloud database.

DEVELOPMENT

We will distribute most of our crowdfunding in development phase for enhancing MACHTCOIN eco-system application and all other project that we will published in Roadmap Phase 2. Our next project in phase 2 will be focusing on live stream, merchant and online ticketing.

Roadmap and Risks

Roadmap

October

2017

- Concept of MACHTCOIN infrastructure
- MACHTCOIN specification & development phase
- System test and trial

2017

November

- Beta version of MACHTCOIN was tested on secure network
- MACHTCOIN prototype application development

December

2017

- Open registration for MACHTCOIN enthusiast in our official website.

February

- Starting Staking plan, lending program and manager bonus
 - Block explorer going online
 - Listing on coin marketplace
 - External Exchange ready

2018

April

Development phase of MACHTCOIN eco-system application for IOS and ANDROID

2018

2018

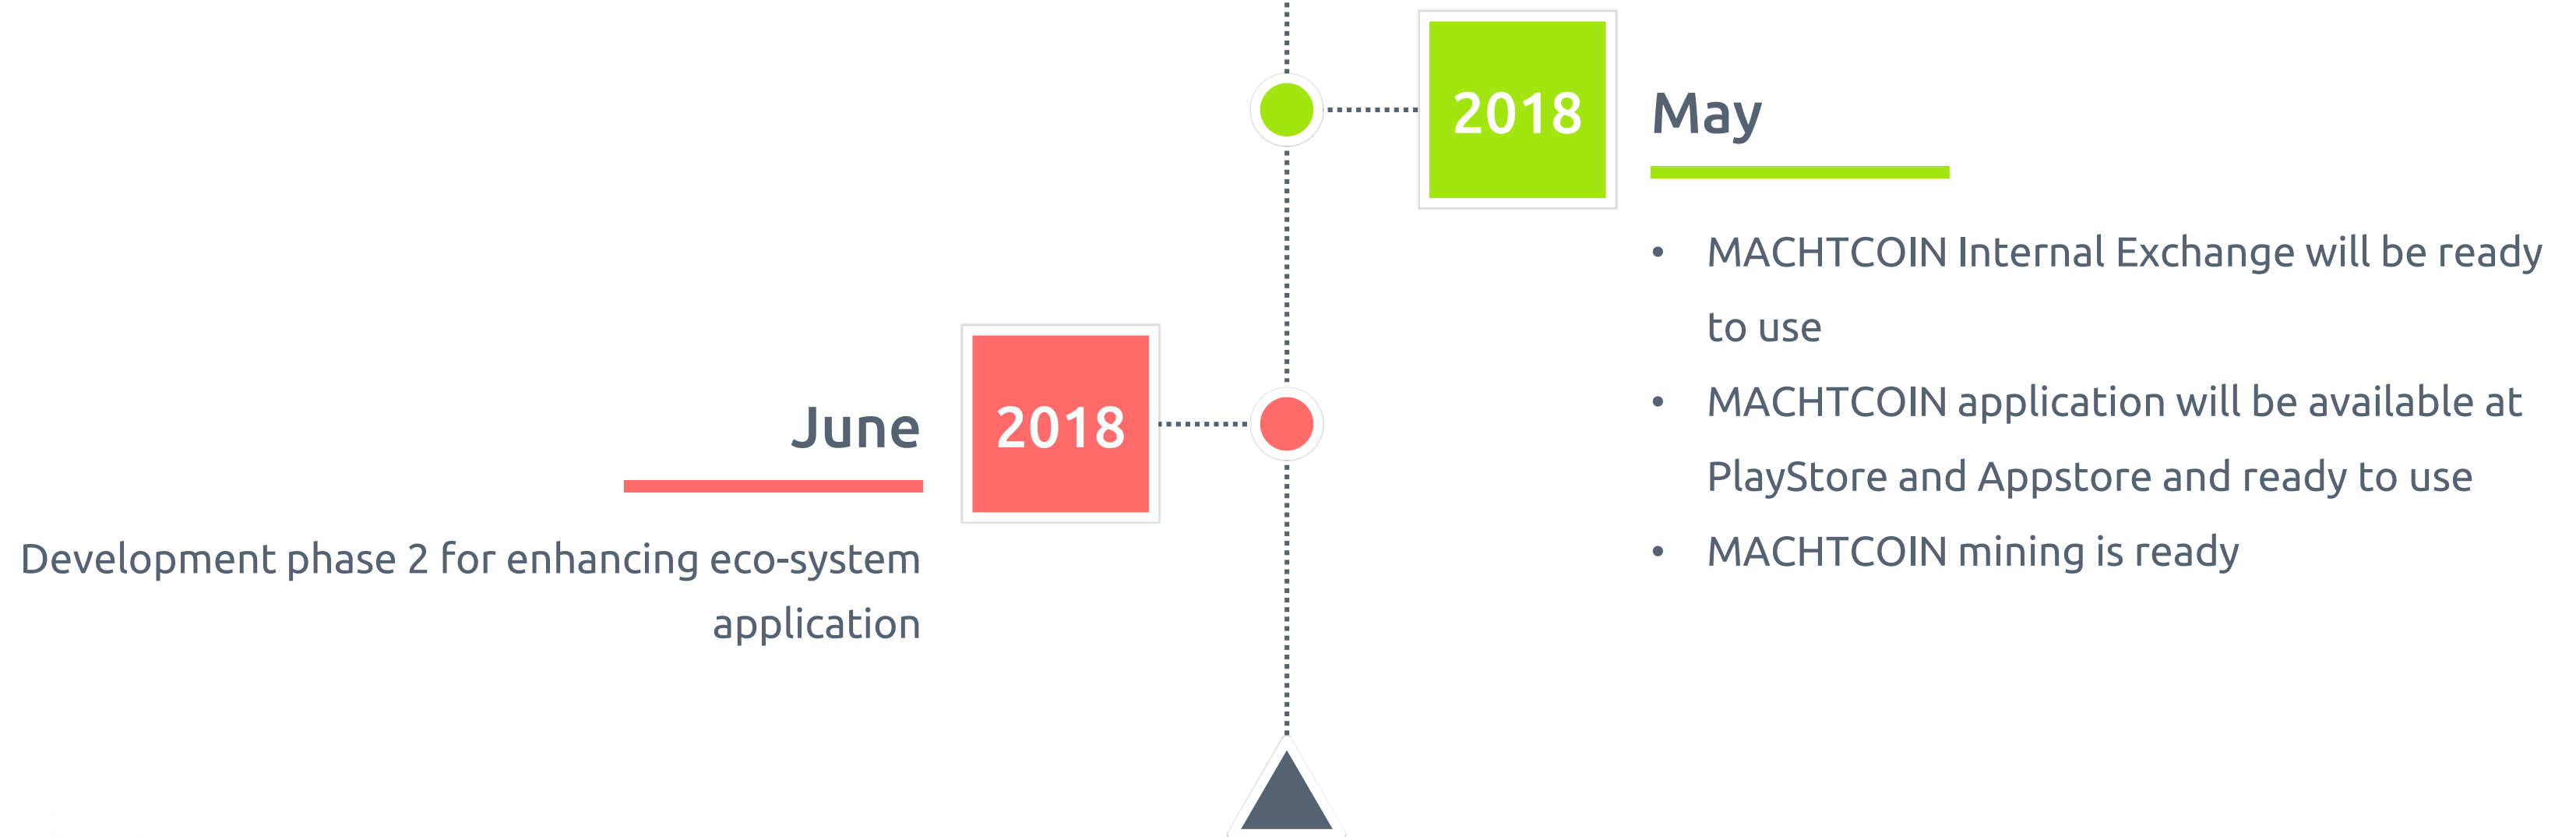

January

- MACHTCOIN ICO Period start on 15th January 2018 for 25 days

2018

March

- Development phase of MACHTCOIN eco-system web based application
- MACHTCOIN Desktop and Mobile wallet will be available

We're Not Finished Yet

We will continue our next big project based on blockchain technology and 3 pillars of our project. We will compete with other cryptocurrency and we will never stop doing innovation.

Risks!

Crypto currency such as Bitcoin is not legal tender, and is not backed by the government. Legislative and regulatory changes or actions at the state, federal, or international level may adversely affect the use, transfer, exchange and value of Bitcoin. Transaction in virtual currency such as Bitcoin are irreversible, and accidental transaction may not be recoverable. The volatility and unpredictability of the price of Non-Fiat currency relative to the fiat currency may result in significant loss over of a short periods of time. Any technological difficulties or glitch experience by the MACHTCOIN may prevent the access of use of members virtual currency temporarily or permanently depending on the severity of damage

Thank you!
